An afterword down here, of all places

This is the wandering Kuusou Porori who always leaves things to the last minute, presenting a second Ai-Hamu boob.

To the first time customers, thanb you for buying this boob! For the second time customers, even more thanbs! It was pretty tight going in terms of both filling the pages as well as time wise. It happens every time, that even when the concept has been decided the words just won't come out, which was pretty troublesome.

But when the words come, the plot progresses. Even though I'm was still thinbing about whether I could really handle the drawing... I really want to stich with this. This is the second boob with these two people. Two people I still love so much. While doing bacbground research I went bacb to play P3 after such a long time and I thought to myself "Moving polygons are really really great too!" ...Won't you produce it, ATlus? Is it impossible?

I want the next release to be an Ai-Hamu one as well. As mentioned in the first book, a slightly serious erotic book. I would be happy if you could pick up the next book as well. I'm also thinking about doing a release for a different genre next year. Next year, when I want to change my environment too. Well then, have a good year!

Panties!! Take off your panties!! I'll help you get them off!! Haah Haah Kimiko-san's panties Give them to me!!

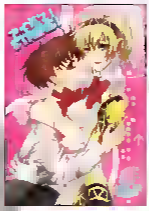
[AIGIS!CRASH!!] P3P FANBOOK
2010 WINTER
FANCY-POLORI PRESENTS

for adults only!

Notes I

Doujin Canon:



- *"Aigis! Crash!!"* is the doujin sequel to *"アイギス!STRIKE!"* (or *"Aigis! Strike!"*).
  - As summarized in page 005, the story is about how Aigis grew a penis in order to have sex with Kimiko.

Translator's Notes:

Al-Hamu (アイハム): Short for [Ai]gis-[Hamu]ko
- Even though the author himself refer to "Kimiko" as "Hamuko" here, all instances of the female protagonist's name in this work, when spoken by Aigis, are printed as "公子" (Kimiko) with no furigana.
- "公子" has no "Hamuko" reading

Page 008: The girls are gossiping about Aragaki Shinjiro (荒垣 真次郎), a Senior and a former SEES member

- **Page 019:** The "Mara-sama" that Kimiko shouted out is referring to the persona "Mara", which is best-known for its striking resemblence to a penis
  - In Japanese ("マーラ"), it's a colloquialism for "penis"

Page 023: The "Merry Chrismas (Not)" is a pun on Kurisumasu (Christmas and Kurushimi-Suffering)

- **Page 024:** Edogawa is the name of the male nurse from the game.

The Series:

Persona 3: The third video game in the *"Shin Megami Tensei: Persona"* series of role-playing video games developed by Atlus, which is part of the larger *"Megami Tensei"* series of video games
- The player takes the role of a high-school student who joins the Specialized Extracurricular Execution Squad (SEES), a group of students investigating the Dark Hour (the 13th/25th hour), a time period between one day and the next that few people are aware of.
  During the Dark Hour, the player enters Tartarus, a large tower containing Shadows, creatures that feed on the minds of humans.
  To fight the Shadows, each member of SEES is able to summon a Persona, a manifestation of a person's inner self.
- The game's most iconic feature is the method by which the members of SEES release their Personas: by firing a gun-like object called an Evoker at their head.

- **Persona 3 Portable:** An enhanced remake of Persona 3 for the PlayStation Portable, in which the player would have the option to play as a female character.

Notes II

The Characters:

Female Protagonist (Amato Kimiko): The silent protagonist from *"Persona 3 Portable"*.
- The Protagonist is unique among her cohorts in that she has the ability to carry multiple Personas and switch between them during battle.
- She is also the only character with access to the Velvet Room, in which the player is able to fuse together multiple Personas together to create a new, more powerful one.

In official preview screenshots of *"Persona 3 Portable"*, the female protagonist's name was "主人 公子" (Amato Kimiko) or "ハム子" (Hamuko), the latter from the dissection of the radical "公".
- "Hamuko" therefore became an affectionate nickname for her ("主人公" means lead character).

Outside of Japan she is also known as 'Arisato Minako', a name derived from the male protagonist's canon name 'Arisato Minato' from the Persona 3 manga.

- **Aigis/Aegis:** Aigis is an android created by the Kirijo Group, she is the last surviving model of their experimental anti-Shadow weapon.
- In combat, she uses a wide variety of high-tech weapons, from machine guns and rocket launchers to long range guns and "rocket punches."

Although she, herself, cannot remember it, a certain event 10 years before the game had made Aigis "very attached" to the main protagonist.

Her name can be spelled Aigis or Aegis, both are correct.
